

WATER FOR WELLNESS

WS 9000

- LG Parts and Components
- Touch activated sensor and self-dispense pad operation
- Innovative Design & Technology
- Large Capacity Stainless Steel Reservoirs
- Enhances Alkalinity in the Water*
- Sanitization*
- Nutrient Boost from 20 added minerals*
- Speedy Water Replenishment
- Clean Fresh Taste

**Be Smart!
Be Healthy!
Go Green!**

“The number one reason for early fatigue is dehydration, not a lack of fuel.”

— Dr. Julie Burns

The Nine Stage Water Treatment Process

1 SEDIMENT FILTER

Removes particles such as dirt, silt, rust and pipe residue.

2 PRE-CARBON FILTER

Removes chlorine, chemicals and pesticides.

3 RO/UF MEMBRANE

Reduces solids, arsenic, bacteria, viruses, pharmaceuticals, and metals.
RO pore size: .0001 micron.
UF pore size: .01 micron

4 BIO-SURE PLUS FILTER

A. Restores & Adds Minerals
More than 20 minerals are added.

B. Enhance Alkalinity in the water
Water is enhanced with minerals to increase alkalinity.

C. Purify & Sanitize

Colloidal Silver is used as an antimicrobial agent to help maintain the cleanliness of the waterway.

5 FINAL POLISHING

Coconut shell carbon polishes the water for a fresh, pure taste.

WS 9000

Height: 50.3" / Width: 14.2" / Depth: 15.5"

Colors: Black and White

Cold Water Capacity: 2.1 Gallons

Hot Water Capacity: 1.3 Gallons

Problems with Bottled Water

- High Costs
- Spillage
- Storage Issues
- Lifting 42lb. Bottles
- Handling & Bacteria Issues
- Excessive Accounting Issues
- Delivery Inconveniences & Security Issues
